# PETER KALISZKY

## PRODUCT OWNER

### PROFESSIONAL SUMMARY

Product Owner with 6+ years of experience turning complex payment systems into seamless digital products. Skilled in aligning customer needs with business objectives to deliver scalable, high-impact solutions. Passionate about continuous growth, with a focus on discovery, strategy, AI-driven product management, and product-led growth.

### WORK EXPERIENCE

#### PRODUCT OWNER

Barion Payment Inc. | February 2022 - Present | barion.com

- Lead three SCRUM teams (Payment, Wallet, Wallet Mobile), collaborating cross-functionally to ensure alignment with business objectives and customer needs.
- Drive product growth by gathering insights from customers, identifying market opportunities, and leveraging product analytics to prioritize impactful features
- Define and manage team OKRs, goals, and priorities; translate business requirements into clear, actionable user stories.
- Own the product backlog, contributing to product roadmap planning and company strategy in partnership with C-level management.

#### Key Achievements:

- Increased Payment Conversion Rate: Led initiatives that boosted and maintained the payment gateway's conversion rate at 80%+.
- Implemented Strong Customer Authentication: Introduced passkey authentication for e-money wallets, adopted by 40,000+ users as a secure alternative to passwords.

#### PRODUCT OWNER

Peak Financial Services | Apr 2018 - January 2022 | peakfs.io

- Managed full lifecycle of white-label mobile and web app development, from planning to delivery.
- Led SCRUM teams (4-12 members) and facilitated agile ceremonies across projects.
- Collaborated with developers and architects to create IT specs and high-level architecture using UML tools.

#### IT PROJECT MANAGER

Hewlett Packard Enterprise | Jan 2016 - Mar 2018 | hpe.com

- Worked alongside the Program Manager on Nokia's global network transformation project.
- Conducted risk and issue management, schedule tracking, and dependency analysis.
- Managed and tracked program-level networking tasks.
- Monitored project progress against the project plan.

#### IT PROJECT MANAGER INTERN

Microsoft | Oct 2014 - Jul 2015 | microsoft.com

- Tracked milestones and results, maintaining continuous communication with customers.
- Prepared progress and completion reports for government projects.
- Managed the Internship Case Study team.
